FEATURE

■ Light service weight, high rated capacity, not limited by floor type:

Minimum size vs 2.0ton capacity,with 1465mm turning radius.

■ High passability design:

EPT20-ET can easily drive through 100mm height barrier with roll-over load wheel and large drive wheel.

80mm lowered height and 140mm lifting height giving flexibility for pallet and application.

■ Easy disassembly handle design:

Pin through tiller style reduces shipping cost and installation time greatly.

■ DC brushless permanent magnet motor:

Life time maintenance free brushless permanent magnet motor.

■ Innovative frame design:

Distribute majority weight to bottom chassis by cylinder structure.

■ Shock absorb chassis design:

Special linkage design, minimize the driving difference between smooth ground and rough ground.

■ 48V electronic system:

48V electronic system increases efficiency and reliability.

■ Easy maintenance:

Electronic system and batteries can be completely exposed by pressing one-touch locker.

Drive wheel can be replaced by loosening one nut.

Retractable charging cord.
